

REMARKS

Claims 1-11 are allowed while claim 12 is objected to over a formality and stands rejected under 35 U.S.C. § 103(a) as being unpatentable over Perkins et al. (U.S. Patent Number 5,442,633, hereinafter "Perkins '633") in view of Maison et al. (U.S. Patent Number 5,719,860, hereinafter "Maison"). Although the applicants respectfully disagree with this objection and rejection, the applicants nonetheless request that claim 12 be canceled without prejudice or disclaimer in order that the application be allowed without further delay.

No remaining grounds for rejection or objection being given, the claims in their present form are asserted to be patentable over the prior art of record and in condition for allowance. Therefore, allowance and issuance of this case is earnestly solicited. The Examiner is invited to contact the undersigned, if such communication would advance the prosecution of the present application. Lastly, please charge any additional fees (including extension of time fees) or credit overpayment to Deposit Account No. 502117 -- Motorola, Inc.

Respectfully submitted,
P. Gilchrist et al.
